LENAWEE
4th GRADE
TEACHERS:
Consider a new learning event this spring!
Participate in Michigan Week Connections.

Using videoconferencing technology you and your students can take a virtual journey to another location in the state of Michigan during May 2007.

You may choose from two different opportunities:

**Michigan Exchange Projects**
45 minute exchange connections via live, interactive video where partner classes each give a 15 minute presentation about their community and then spend 15 minutes asking each other questions about their respective communities.

**Where in Michigan?**
2 hour multipoint interactive video connection where students present clues about a city in Michigan and try to guess based on the information presented. Usually 5-6 classes participate.

In Lenawee County, students and their teachers may be able to videoconference right from their buildings, or they may go to the ITV room in the Porter Center on Sutton Road on the day of the event. The exact date and time for each video connection will be determined later, but connections will take place in May 7 – 18, 2007.

**Registration is from March 1 to April 4, 2007. If you are interested in either opportunity, contact Greg Marten**, LISD Coordinator of Distance Learning at 265-1694 or greg.marten@lisd.us. We will work together to register your class. Full assistance in the planning and implementation of your students’ presentation will be offered to each Lenawee teacher who decides to participate.

For more information, contact Greg Marten or visit: [http://www.twice.cc/MI](http://www.twice.cc/MI)
